Microsoft Viva Connections

Quick Deploy

Who Viva Quick Deploy is for:

Aimed at businesses that require an entry point into Microsoft Viva, and already have Sharepoint Online and Microsoft Teams licences.

Get one step ahead, with Core's Viva Connections Quick Deploy

Core's Viva Connections Quick Deploy program will provide a fully operational instance of Viva Connections to help to accelerate your Viva implementation.

Viva Connections Quick Deploy will deploy Viva Connections, and enable Teams, Yammer, and SharePoint to support the wider Viva and Viva Connections implementation in your organisation.

For many organisations, Viva Quick Deploy is the gateway to the full Viva experience, including modules such as, Topics, Learning, and Insights.

Viva Connections overview

Viva Connections is a company branded employee app accessed through Teams. Discover a gateway to your employee experience, with personalised news, communications, tasks, people and resources – all in a single curated destination that can be configured for specific roles like frontline or shift workers.

Connections builds on existing Microsoft 365 capabilities like Yammer and SharePoint, and is designed to bring your teams closer, simplify workflows, and improve communication, wherever your teams are.

Viva Connections Quick Deploy

Evaluate

- **Evaluation of environment readiness**
  We'll review your existing Microsoft 365 and SharePoint Online set up to make sure you're ready for Viva.

- **Define baseline Viva Connections use cases/scenarios**
  We'll work with you to establish the top three use cases for Viva Connections, to make sure you get the most from the platform from day one.

Viva Connections Quick Deploy

Configure

- **Deploy baseline configuration**

  We'll apply updates to your SharePoint Online and Teams to support Viva Connections configurations.

- **SharePoint Home Site**

  We will configure your SharePoint Online to support Viva Connections.

- **Yammer Communities App**

  Our Viva deployment team will configure Viva Connections within the Yammer app.

- **Deploy & Configure Viva Desktop**

  Viva Connections will be installed, ready to deploy.

- **Viva Feeds & Dashboards - Foundational configuration**

  Configuration of Viva web feeds, plus, we'll ensure the Viva dashboard is operational and test the deployment.

Handover

- **Handover and Operations Guide**

  When we've completed the configuration, and tested the deployment, we'll handover to your team, providing deployment training where necessary. We will also help your team discover new use cases so you get the most out of your Viva Connections.
